With a welcome dinner we start the navigation until the entrance of Magdalena Channel by which we enter at D'Agostini Sound, destiny of our cruise. After 5 hours the FORREST left behind Channel Magdalena to enter at fjord Keats which leads at the interior of D'Agostini Sound. From the boat, at the right hand side, we can appreciate the majestic silhouette of Sarmiento Mount, one of the highest of Tierra del Fuego.

At dawn the FORREST will anchor in the beautiful Angelito Bay, which is the ideal place for the first landing and excursion. We remain throughout the day touring these beautiful places to appreciate each of the 13 glaciers that emerge from the snowy mountains, and among which stand out Glacier Aguila, Serrano and D'Agostini. In places particularly attractive we will carry out some landings. After enjoying the scenic wonders we spend the night in the area.
